

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Currently amended): A computer implemented method for determining the market demand for an artist

comprising:

receiving user input to determine which artist to select from a pool of artists;

determining the market demand for said selected artist based on users contributing to a fund for said artist; ~~and~~

identifying artists that attain a predefined level of user contributions, and

providing users who contributed to artists that did not attain the predefined level of user contributions an option of:

a refund of their contribution;

a redistribution of their contribution to another artist from the pool of artists; or

to leave their contribution undistributed in a non-artist account.

2. (Original): A method according to claim 1 wherein said user input is in the form of user votes.

3. (Original): A method according to claim 1 further comprising giving users contributing to an artist who attains a predefined level of user contributions a recognition certificate regarding said artist.

4. (Original): A method according to claim 1 further comprising making available to each artist attaining a predefined level of user contribution funds from the users' contribution to the artist to produce and commercialize the artist.

5. (Previously presented): A method according to claim 4, further comprising using said funds to produce a record from said funds when said artist is a musician.

6. (Original): A method according to claim 5 further comprising providing said artist the entire fund based on the completion of a predefined criteria.

7. (Original): A method according to claim 1 further comprising maintaining information on said users, and using said information to market said artist.

8. (Original): A method according to claim 1 comprising limiting the number of users permitted to contribute to said artist to a predefined number.

9. (Currently amended): An apparatus for determining the market demand for an artist comprising:

means for receiving user input to determine which artist to select from a pool of artists;

means for determining the market demand for said selected artist based on users contributing to a fund for said artist; ~~and~~

means for identifying selected artists that attain a predefined level of user contributions; and

means for providing users who contributed to artists that did not attain the predefined level of user contributions an option of:

a refund of their contribution;

a redistribution of their contribution to another artist from the pool of artists; or

to leave their contribution undistributed in a non-artist account.

10. (Currently amended): A method for an artist to obtain financial support comprising:

receiving and storing on a file server a sample of the artist's work;

evaluating the stored artist work from a pool of artists;

selecting an artist based on said artist's work to be eligible for financial contributions from users; and

establishing a fund of any such contributions for an artist who meets a predefined criteria;

and

providing users who contributed to artists that did not meet the predefined criteria an option of:

a refund of their contribution;

a redistribution of their contribution to another artist from the pool of artists; or

to leave their contribution undistributed in a non-artist account.

11. (Original): The method of claim 10 further comprising making the fund available to the artist to produce a musical record.

12. (Original): The method of claim 10 further comprising releasing the fund to the artist based on artist meeting predefined criteria.

13. (Original): The method of claim 10 further comprising returning the selected artist to the pool of artists if artist fails to meet predefined criteria.

14. (Original): The method of claim 10 wherein selecting an artist to be eligible for financial support is based on the artist who attains the largest number of user votes.

15. (Original): The method of claim 10 wherein selecting an artist to be eligible for financial support is determined by a panel of individuals.

16. (Original): The method of claim 10 wherein selecting an artist to be eligible for financial support is determined in part by a panel of individuals and in part by user votes.

17. (Currently amended): A computer implemented system for determining the market demand for an artist comprising:

a file server; and

a processor programmed for implementing instructions for:

receiving and storing user input on said file server to determine which artist to select from a pool of artists;

determining the market demand for said selected artist based on users contributing to a fund for said artist; and

identifying artists that attain a predefined level of user contributions; and  
providing users who contributed to artists that did not meet the predefined level  
an option of:

a refund of their contribution;

a redistribution of their contribution to another artist from the pool of artists; or

to leave their contribution undistributed in a non-artist account.

18. (Canceled).

19. (Canceled).

20. (Original): The system of claim 17 further comprising instructions for selecting artists from a pool of artists using inputs from a panel of individuals.

21. (Original): The system of claim 17 wherein the number of artists that can be selected to receive financial support from the pool of artists is predefined.

22. (Currently amended): A computer implemented system for presenting artists to determine market demand for artists comprising a computer programmed having instructions for implementing the method of:

receiving and storing work of artists on a file server;

dividing said work into categories;

selecting said work from said categories;

elevating selected works into positions that are eligible to receive direct financial support from users; and

promoting the artists who receive a predefined amount of direct financial contributions;

and

providing users who contributed to artists that did not meet the predefined amount an option of:

a refund of their contribution;

a redistribution of their contribution to another artist; or

to leave their contribution undistributed in a non-artist account.

23. (Original): The system of claim 22 comprising instructions for limiting the number of positions available to receive financial contributions from users.

24. (Currently amended): An article comprising a computer-readable medium that stores computer-executable instructions for causing a computer system to:

receive user input to determine which artist to select from a pool of artists;  
determine the market demand for said selected artist based on users contributing to a fund for said artist; ~~and~~  
identify artists that attain a predefined level of user contributions; and  
provide users who contributed to artists that did not meet the predefined amount an  
option of:

a refund of their contribution;

a redistribution of their contribution to another artist from the pool of artists; or

to leave their contribution undistributed in a non-artist account.

25. (Original): The article of claim 24 wherein users select and contribute to an artist through a network connection.

26. (Currently amended): A computer implemented apparatus for determining market demand for an artist comprising:

means for receiving and storing works of artists;

means for enabling users to access the stored works;

means for receiving user input to elevate artist from the general artist pool;

means for making elevated artists eligible for financial contributions from users; ~~and~~

means for making financial contributions from users available to artists that meet predefined criteria; and

means for providing users who contributed to artists that did not meet the predefined  
criteria an option of:

a refund of their contribution;

a redistribution of their contribution to another artist from the general artist pool;

or

to leave their contribution undistributed in a non-artist account.

27. (Currently amended): A method for determining the market demand for an artist, said method comprising:

receiving input from a plurality of users to at least one of a plurality of artists;

selecting at least one artist from said plurality of artists to receive financial contributions from said plurality of users; and

identifying from said plurality of artists ~~said~~ at least one artist that receives a predefined amount of financial contributions, wherein said financial contributions are not in exchange for artist merchandise; and

providing users who contributed to artists that did not meet the predefined amount of financial contributions an option of:

a refund of their contribution;

a redistribution of their contribution to another artist from the general artist pool;

or

to leave their contribution undistributed in a non-artist account.
